Written Comments and Inquiries:

Thank you for hearing me out. I am writing regarding the growing amount of traffic and dangerous speeds vehicles travelling Fairgrounds Rd S from 91 to Creemore. We are about 3 km from Creemore's retail shops and village community. I used to walk into town. I would be taking my life in my hands if I was to do that now. As you know, there have been three major accidents that have happened on the road in the recent past. All three were within 300 meters of our property. One accident took out our neighbor's fence. Another was a car/trailer collision that could have ended much worse. The third was a fatality of a young Creemore resident. All three can be attributed to increased traffic volumes and speed.

We take this very seriously. We believe you do too. Especially with homes, families and pets living along this road, and cyclists and needed farm equipment travelling along these roads.

We'd like to reiterate our request for action:

1. Reduce speed limit on Fairgrounds Road S (from Creemore to 91?) to 50km or 60km/hour
2. Place radar traps and police along the road this spring and summer – that should fill the government coffers quickly – the traffic cops will be busy
3. Lobby Google Maps and Waze and other maps programs to take Fairgrounds Road S off their routes to direct traffic back to the highway.
4. Place "SLOW DOWN, KIDS AT PLAY" along the road to alert travelers that people live along this road – it's not a highway.

Bring safety to our wider Creemore area and maintain the sanctity of our community. Please....
